## CHEERFUL SICKBED VISITOR

Mike's Few Words of Consolation Must Have Done His Friend Pat a Lot of Good.

Senator Henry F. Lippitt of Rhode Island smiled the other evening when the conversation turned to sweet consolation. He said he was reminded of an incident that happened in New England.

A party named Pat was taken quite sick and was confined to his bed for several days. One evening Mike called and found the patient exceedingly depressed. Immediately the tender-hearted Mike became very sympathetic.

"Sure, Pat," he said, in a soft and gentle voice, "do yez feel loike yez was sicker?"

"It ain't that, Moike," returned Pat, in a melancholy voice. "O'im thinkin' av the doother. He has been here fourtane toimes at two bones a throw, an' O'i haven't got a cint in the worruld."

"Don't yez worry about the doother, Pat. Don't yez worry about the doother!" was the consoling rejoinder of Mike. "Sure an' he will get his'n all right. Yez have got some insurance, hain't yez?"

## Whole Family Dependent.

Mr. E. Williams, Hamilton, Ohio, writes: "Our whole family depend on Pine-Tar-Honey." Maybe some one in your family has a severe cold—perhaps it is the baby. The original Dr. Bell's Pine-Tar-Honey is an every ready household remedy—it gives immediate relief. Pine-Tar-Honey penetrates the linings of the Throat and Lungs, destroys the Germs, and allows Nature to act. At your Druggist 25c—Advertisement.

## CINEMAS ON THE SEA.

It has been remarked before now that only a salmon stream or a golf course is necessary to add to the completeness of the equipment of the up-to-date modern liner, with its swimming baths, theaters, tennis courts and other amenities, but it has been left apparently to the Orsova, of the Orient line, to receive the first board of trade permit to carry a cinema. For the purpose of the show a stage, including a pretty drop scene, is rigged up on deck, where seating accommodation for some 1,500 spectators is provided, and noninflammable films are used, so that there is no danger of fire. In addition to the ordinary "subjects," special films showing Australian scenes and events are provided for the benefit of emigrant passengers, and in this way serve educational as well as recreative purposes.

## White Man With Black Liver.

The Liver is a blood purifier. It was thought at one time it was the seat of the passions. Dr. King's New Life Pills will clean up the Liver, and give you new life. 25c a your Druggist. Advertisement.

## HARD LUCK.

"Terrible predicament Jones was in."  
"What was that?"  
"Got in hot water and couldn't get anybody to bail him out."

## THE WEDDING.

"This poor girl was simply sold to a rich husband."  
"Oh, you're mistaken. I was there, and saw her father give her away."

## THEIR ADVANTAGE.

"Do you suppose these society dairies do any business?"  
"They certainly ought to get the cream of the trade."

## THEIR HOPE.

"When deserted belles want to sue, where should they go?"  
"Why, of course, to a court of appeal."

## THE CAUSE.

"Why is it the law wants to muzzle some speakers?"  
"Maybe it is afraid of their biting remarks."

## GETTING RID OF THE SMOKE

Composition of Powder That is Now in General Use is Most Simple Process.

Ordinary powder produces smoke when fired because of the quantity of fine particles formed from the breaking up of the saltpeter and from some of the charcoal which is not completely burned. To get rid of smoke, so long a handicap in the use of guns, it was necessary to produce a substance that would explode without leaving any solid residue. This was accomplished by the use of gun cotton or nitrocellulose, from which the most satisfactory smokeless powder is made. The substance is a chemical compound, not a mixture like gunpowder, and is made by treating cotton with a mixture of nitric and sulphuric acids. When exploded it is all converted into gases. Burning is not necessary to cause an explosion, a mere shock or jar being sufficient. It is too violent to use in small arms or in cannon, but gun cotton can be made into less forceful forms, suitable for use in guns, and most brands of smokeless powder are made in this way.

## HOSPITAL SHIPS ON OCEAN

Entail Enormous Amount of Work Before They Are Ready for Intended Purpose.

There are no hospital ships in use in this war which have been specially built. They are all liners, and similar vessels, which have been converted, and the work of converting is a bigger business than would be imagined.

To start with, all such articles as carpets, furniture, and so on, have to be got rid of, and it nearly always happens that partitions have to be broken down or rigged up, in order to construct the necessary wards and ante-rooms.

In place of the carpets the floors have to be polished. An enormous amount of painting and enameling has to be done, and cots and hammocks have to be brought in.

Besides the wards two or three operating theaters, together with their "preparation rooms," have to be constructed and then the whole fitted out with the very best instruments and appliances obtainable.

## CHINESE DAILY IN PHILIPPINES.

A second daily paper to be published in the Chinese language has been incorporated in Manila, with a capital stock of \$15,000. The new daily will be called the Han Ho Po, and it will support the administration of President Yuan Shi Kai, of the Chinese republic. The other Chinese daily, the Kong Li Po, follows the lead of Dr. Sun Yat Sen. The local Chinese colony is liberal in its support of dialect newspapers, and local merchants find the Chinese papers an advertising medium that reaches a reading public able to buy.—J. F. Boomer, correspondent, Manila, December 19.

## MODERN HOSTILITIES.

"A gossip is never willing to repeat unkind remarks to your face."  
"No," replied Miss Cayenne. "Gossip is conducted on the approved principles of modern warfare. You are not supposed to see the person you are shooting."

## HEADING HIM OFF.

"I have been thinking it over and I have concluded that two can live as cheaply as one, and so—"

## A TRUE REPORT.

Diner—See here, waiter, this chop is all fat.  
Waiter—I think not, sir; there's a good deal of bone about it.

## THEIR IDEA.

"The fates embroider human life, they say."  
"Then I suppose they use cross-stitch for matrimonial life."

## LOGICAL CONCLUSION.

"I wouldn't take any girl's own estimate of herself."  
"Of course not. It's bound to be a misrepresentation."

## PARADOXICAL DISCOVERY.

"So you found Mrs. Fibby in when you were told she was not at home."  
"Yes, and that is how I found her out."
